Simplify3d is another 3d slicing program that works with our 3d printers.

You can purchase and download their software here : <https://www.simplify3d.com/>

Download the Factory File and FFF Profile attached.

Once installed and opened:

- Click File
- Open Factory File
- Click on GorillaMaker.factory and click Open (processes will appear for GM3D200, GM3D500, GM3D700)
- Double Click on Process Name and Click OK to use that process.
